Niacin supplement, vitamin A supplement, vitamin D3 supplement, vitamin E supplement, thiamine mononitrate, riboflavin supplement, calcium pantothenate, pyridoxine hydrochloride, vitamin B12 supplement, biotin, folic acid, ascorbic acid, certified organic dried kelp, selenium yeast, zinc proteinate, dried primary yeast, iron proteinate, manganese proteinate, choline chloride, copper proteinate, cobalt proteinate, dried Lactobacillus acidophilus fermentation product, dried Lactobacillus casei fermentation product, dried Enterococcus faecium fermentation product, dried Lactobacillus lactis fermentation product, dried Pediococcus cerevisiae fermentation product, dried Bifidobacterium bifidum fermentation product, dried Bifidobacterium infantis fermentation product, dried Bifidobacterium longum fermentation product.

NOTICE

All microbial and enzyme sources in Bio-Vet products are naturally occurring (non-GMO). No Bio-Vet products are irradiated nor are any components derived from sewage sludge. The plant charcoal utilized in some Bio-Vet products is non-synthetic. Mineral proteinates utilized in some Bio-Vet products are of plant origin and contain no animal proteins.

RECOMMENDED USES

A nutritional, microbial supplement for calves with sluggish appetite at birth, shipping, during heat stress, major feed changes; in conjunction with veterinary therapy; for off feed calves, any time listed nutrients or microbials are desired.

APPLICATION / FEEDING DIRECTIONS

Capsules fit three rib, plastic balling guns. Open capsule contents onto feed, mix with grain, or place capsule directly inside calf's mouth by gently inserting balling gun to base of tongue.

Calves under 500 lbs	1 capsule / orally once or twice daily for up to three days
