Nutritional / microbial supplement for calves. Provides daily levels of vitamins, selenium, viable microorganisms, digestive enzymes, fructooligosaccharides, yeast cell walls, kelp and specialized egg proteins.

GUARANTEED ANALYSIS: (minimum per pound)

Selenium	13 ppm	Vitamin E	2,600 IU
Vitamin A	320,000 IU	Niacin	320 mg
Vitamin D3	115,000 IU		

Total Microbial Count 64 Billion CFU

(Lactobacillus acidophilus, Lactobacillus casei, Enterococcus faecium, Lactobacillus lactis, Pediococcus cerevisiae, Bacillus subtilis, Bacillus licheniformis, Bifidobacterium bifidum, Bifidobacterium infantis, Bifidobacterium longum)

INGREDIENTS

Dextrose, dried kelp, inulin, dried primary yeast, vitamin A supplement, vitamin D3 supplement, vitamin E supplement, thiamine mononitrate, riboflavin, niacin supplement, calcium pantothenate, pyridoxine hydrochloride, vitamin B12 supplement, biotin, folic acid, ascorbic acid, sodium silico aluminate, selenium yeast, dried Lactobacillus acidophilus fermentation product, dried Lactobacillus casei fermentation product, dried Enterococcus faecium fermentation product, dried Lactobacillus lactis fermentation product, dried Pediococcus cerevisiae fermentation product, dried Bifidobacterium bifidum fermentation product, dried Bifidobacterium infantis fermentation product, dried Bifidobacterium longum fermentation product, dried Bacillus subtilis fermentation product, dried Bacillus licheniformis fermentation product, dried Aspergillus oryzae fermentation extract, dried Aspergillus niger fermentation extract, dried Bacillus subtilis fermentation extract, dried Bacillus lentus fermentation extract, dried Trichoderma viride fermentation extract, dried Trichoderma longibrachiatum fermentation extract, torula dried yeast, dried egg solids, choline chloride

RECOMMENDED USES

A nutritional, digestive supplement for daily feeding to all calves on milk or milk replacer.

APPLICATION / FEEDING DIRECTIONS

Mix 1/6 ounce (one level scoop) or one pound per 96 calves twice daily with warm (105°-120°F) milk or with milk replacer powder and reconstitute with warm water according to replacer instructions. For best results, feed entire time calf is on liquid feed.

Purchased calves	one pound per 24 calves per day for one week
During environmental stress	up to one ounce per calf per day for 2 – 3 days.

PACKAGING
