Sodium	6.2% (min)	7.2% (max)
Chloride	6.2% (min)	
Potassium	2.0% (min)	

### Total Microbial Count (min) ..... 18 Billion (1.8 x 10<sup>10</sup>) colony forming units

(Lactobacillus acidophilus, Lactobacillus casei, Enterococcus faecium, Lactobacillus lactis, Pediococcus cerevisiae, Bifidobacterium bifidum, Bifidobacterium infantis, Bifidobacterium longum)

### INGREDIENTS

Dextrose, sodium chloride, potassium chloride, glycine, citric acid, sodium bicarbonate, inulin, primary dried yeast, monosodium phosphate, sodium silico aluminate, magnesium sulfate, dried kelp, ascorbic acid, thiamine mononitrate, riboflavin supplement, niacin supplement, calcium pantothenate, pyridoxine hydrochloride, folic acid, biotin, vitamin B12 supplement, dried Lactobacillus acidophilus fermentation product, dried Lactobacillus casei fermentation product, dried Enterococcus faecium fermentation product, dried Lactobacillus lactis fermentation product, dried Pediococcus cerevisiae fermentation product, dried Bifidobacterium bifidum fermentation product, dried Bifidobacterium infantis fermentation product, dried Bifidobacterium longum fermentation product, flavor.

### RECOMMENDED USES

Designed as a nutritional supplement for calves to replenish electrolyte salts at shipping, during fluid loss, when diarrhea is present, as management during hot weather and to reduce shrink, in conjunction with veterinary therapy for disease; other times that listed nutrients, electrolytes and beneficial microbial cultures are desired.

### APPLICATION / FEEDING DIRECTIONS

Enclosed scoop holds 50 grams when filled level to rim.

During hot weather	Mix 50 to 100 grams with 2 quarts of water and feed between milk feedings.	or mix 25 grams with milk replacer and provide clean, fresh water twice a day.
Dehydrated calves or calves with diarrhea	Mix 100 grams with 2 quarts warm water. Feed twice daily. Can be fed as drench or with a stomach tube.	Calves less than 90 Lbs: Feed 1.5 quarts Calves up to 250 lbs: Feed 2 quarts Separate milk & electrolyte solution feedings by at least 30 minutes.

### PACKAGING

Product Code	
<b>GN-265</b>	500 gram (5 dose) pouch (50 pouches / case)
<b>GN-261</b>	2.5 kg (25 dose) pouch (10 pouches / case)
<b>GN-262</b>	7.5 kg (75 dose) pouch (4 pouches / case)
<b>GN-267</b>	50 lb (225 dose) bags (1/case)
<b>GN-266</b>	one ton (50 lb bags, 40 per pallet)
