INGREDIENTS: Sodium chloride, apple juice, apple cider vinegar, potassium chloride, sodium citrate, water, magnesium chloride, guar gum, calcium chloride, ascorbic acid, calcium acetate, ferrous glycine, manganese amino acid complex, zinc amino acid complex, copper amino acid complex, dried kelp, vitamin A supplement, vitamin D3 supplement, vitamin E supplement, thiamine mononitrate, riboflavin supplement, niacin supplement, calcium pantothenate, pyridoxine hydrochloride, biotin, vitamin B12 supplement, folic acid, choline chloride.

RECOMMENDED USES

Nutritional supplement for dehydrated horses due to travel, exercise or hot weather.

FEEDING DIRECTIONS:

During travel, exercise or hot weather: Administer entire tube to horse by placing tube between cheek and teeth. Push plunger slowly until entire contents are expelled. **Allow horse access to water.**

Use additional water for rehydration.

Horses that sweat profusely, are lactating or undergoing extended exercise during hot weather may require 25% to 50% more water daily to maintain their proper hydration status.

PRODUCT CODE

GN-00143 40 gram tube, 20 tubes / box, 4 boxes (80 tubes) / master case
