<b>Salt (min):</b>	<b>48.5 %</b>
<b>Salt (max):</b>	<b>53.5 %</b>
<b>Sodium (min):</b>	<b>21.2 %</b>
<b>Sodium (max):</b>	<b>25.4 %</b>
<b>Chloride:</b>	<b>37.1 %</b>
<b>Magnesium:</b>	<b>0.22 %</b>
<b>Potassium:</b>	<b>9.6 %</b>

**INGREDIENTS:** Sodium chloride, potassium chloride, sodium citrate, dried apple juice, maltodextrin, glycine, dried molasses, magnesium sulfate, calcium acetate, sodium silico aluminate, ascorbic acid, ferrous glycine, manganese amino acid complex, dried kelp, zinc amino acid complex, copper amino acid complex, vitamin A supplement, vitamin D3 supplement, vitamin E supplement, thiamine mononitrate, riboflavin supplement, niacin supplement, calcium pantothenate, pyridoxine hydrochloride, biotin, vitamin B12 supplement, folic acid, choline chloride.

## RECOMMENDED USES:

Nutritional supplement for dehydrated horses due to travel, exercise or hot weather.

## FEEDING DIRECTIONS: (level scoop = 1/2 ounce)

This powder may be mixed with the horse's daily intake of water or mixed with dry feed when ample water to meet the horse's daily intake is immediately available and according to the following schedule:

**During hot weather, travel, moderate exercise:** Mix 1 scoop (1/2 oz.) electrolyte powder into at least 2 gallons of drinking water.

**During extreme heat or prolonged exercise:** Mix 2 level scoops (1 oz.) electrolyte powder into at least 2 gallons of drinking water.

## Use additional water for rehydration.

Horses that sweat profusely, are lactating or undergoing extended exercise during hot weather may require 25% to 50% more water daily to maintain their proper hydration status.

## PRODUCT CODE

**GN-00141** 3 pound pouch, 10 pouches / case
