NOTICE

All microbial and enzyme ingredients in this product are naturally occurring (non-GMO). No ingredients are irradiated nor are any components derived from sewage sludge. Mineral proteinates are of plant origin and contain no animal proteins.

RECOMMENDED USES

Drench cows at calving as part of routine fresh cow management protocols.

FEEDING DIRECTIONS

Feed via esophageal-rumen tube.

Immediately after calving:

Mix 0.75 pounds powder into at least 5 gallons of warm water.

For next two days:

Mix 0.5-0.75 pounds into 5 gallons of warm water / feed once daily if needed.

Do not feed dry powder to cattle. Avoid contact with eyes. For animal use only.
