DIRECTIONS:

Universal tube design easily attaches to most tube guns. Depending on gun, one pull of gun handle dispenses 15 ml of gel. Place gel on feed, mix with grain, or place gel directly inside animal's mouth by gently inserting the tip of tube between the cheek and teeth or base of tongue.

Feed orally once or twice daily for up to three days:

Calves (less than 400 lbs. body weight): 5 ml

Growing Cattle (400 - 1000 lbs. body weight): 10 ml

Adult Cattle (over 1000 lbs. body weight): 15 ml

Sheep and Goats: 5 ml

STORAGE: Keep closed between uses. Store in cool, dry place.
